Kenneth J. Annis and Associates, established in 1974, is engaged in a broad range of general practice and provides legal services and representation in the areas of civil litigation, specifically, personal injury, medical negligence, and products liability; as well as trusts, wills and estates, domestic, DWI and criminal matters. Our firm is dedicated to meeting the specific needs of our clients, with professional and personal, one-on-one service between the client and the attorney. Our goal is to provide sound advice to our clients, to assertively represent them and reach a favorable outcome at reasonable cost.

Kenneth J. Annis, the lead attorney, has provided leadership to many civic and professional organizations and has membership in several prominent associations. Mr. Annis is fluent in French and we have Spanish-speaking staff as well. Over the past 30 years, we have represented thousands of clients efficiently and effectively, and with sensitivity and consideration of our clients' needs and circumstances. We are referred regularly to the personnel and staff of the World Bank, IMF and others in the international community.

Our firm offers a special discounted fee arrangement for AFSPA members and their families. We meet with perspective clients, in person, to discuss legal matters at no charge. We offer substantial discounts off our standard hourly and reduced fixed fees. We, also, reduce fees for simple and complex wills and uncontested divorce matters, as well as contingent fee cases for all AFSPA members.

We look forward to providing exceptional legal representation to our prospective clients and will work diligently to obtain the most favorable outcome.

Our office is located across the street from the Farragut North Metro Station on the Red Line and 1½ blocks from the Farragut West Metro Station on the Blue Line. Parking is also available in the building.

For further information about our firm and our services, please telephone Kenneth J. Annis, Esquire at (202) 785-2244. www.lawyers.com/kennethannis
