

2026 Express Scripts National Preferred *Flex* Formulary List

The 2026 National Preferred *Flex* Formulary prescription drug list (PDL) is shown below. This PDL is the list of medications included in your prescription plan. Inclusion on the PDL does not guarantee coverage.

The following prescription drug list is not a complete list of over-the-counter [OTC] products (medications that can be legally purchased without a doctor's prescription) and prescription medical supplies that are on the drug list. The only OTC products and prescription medical supplies that appear on the list are in contracted classes.

PLEASE NOTE: Brand-name medications may move to nonformulary status if a generic equivalent version becomes available during the plan year. Not all the medications listed are covered by all prescription plans; check your benefit materials for the specific medications covered and the copays for your prescription plan. For specific questions about your coverage, please call the phone number printed on your prescription ID card.

KEY

[INJ] – Injectable Medication

[OTC] – Over-the-Counter Product

[SP] – Specialty Medication

Brand-name medications are listed in CAPITAL letters.

Generic medications are listed in lower-case letters.

For the member: FDA-approved generic medications meet strict standards and contain the same active ingredients as their corresponding brand-name medications, although they may have a different appearance.

For the physician: Please prescribe preferred products and allow generic substitutions when medically appropriate.
